Already Representable:

The Kurdish flag is not already representable through other existing emojis.

Overly Specific:

The Kurdish flag is distinct enough to represent the broader concept of the Kurdish people.

Open-ended:

This proposal is not likely to open a floodgate of similar emoji requests due to its distinctiveness.

Transient:

The flag has historical significance and represents a long-standing cultural identity, which isn't transient or faddish.

Faulty Comparison:

The flag represents the Kurdish people and cannot be accurately represented through other flag emojis.
